Colors Labeled

Due to its fine colors and its compact growth there is no other variety as effective in rock-garden, landscape or border planting.

AZALEA CHRYSANTHEMUMS are fine for cutting, and excellent for border planting. They prefer a light loamy soil, well enriched with leaf-mould, but no manure or chemical fertilizer should touch the roots; a little bonemeal and a light top-dressing of lime should prove beneficial. They will thrive either in partial shade or full sunlight, but see that the moisture supply is good at all times.

Planting time is Spring until Fall, flowering period is July, August, September, October, November each year.

Sensation everywhere! 2,500 brilliant large blooms second year on one plant, 5 months of Blazing Beauty every year. Order now for Spring Delivery. Don't be too late.
